DETAILED ACTION

1. The information disclosure statements (IDS) submitted on 06/23/04 and 06/24/04 were filed after the mailing date of the allowance on 03/23/04. The submissions are in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statements have been considered by the examiner.

Allowable Subject Matter

2. Claims 1-3, 4 and 7-23 are allowed.

3. The following is an examiner's statement of reasons for allowance: Claim 22 remains allowable for at least the reasons given in the Office action dated 03/23/04. Additionally, claims 1, 15 and 21 contain allowable subject matter for at least the reason that the prior art of record fails to teach or reasonably suggest an acousto-optic tunable filter, or method of filtering light, comprising a damper located on an optical fiber, the optical fiber having an interaction length of fiber interposed between a wave generator and the damper, the damper having a proximal surface that is continually slanted relative to a longitudinal axis of the optical fiber. The slanted surface of the instant damper differs from the conical surfaces of the prior art (see for instance Kim, US 6,266,462), as it is not continually slanted relative to a longitudinal axis of the optical fiber as required by the claims.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
